WORKING PAPER

Project: 9044-A
Date: 900703
Time: 0803-0914
Viewer: 018
Session: 02

SUMMARY OF INFORMATION:

SG1A

1. Describe the association between the vessel bearing the call sign [REDACTED] and the vessel bearing the call sign [REDACTED]

SG1A

SG1A The [REDACTED] will come alongside the [REDACTED] on 7 July to transfer a
SG1A big load of drugs. This will be the largest transfer of drugs from the
[REDACTED] and will take place very slowly, with a smaller boat going
between the two, carrying small portions of the drugs, at irregular
intervals, almost as though they were waiting to get each small portion
safely hidden before risking being caught with another.

SG1A

2. Do both call signs belong to the vessel identified as [REDACTED] in
Project 9038?

SG1A

SG1A No. The [REDACTED] is not a callsign. the callsign [REDACTED] belongs
SG1A to the [REDACTED] which is not the same ship as the one using the
SG1A callsign [REDACTED]

SG1A

3. Describe the relevance, if any, of the activity projected to take place
south of Jamaica, and that projected for south of the Dominican Republic.

I could find no hard and fast relationship between the two, other than
the possibility that one of the ships involved in the exchange south of
Jamaica may possibly also be involved in an exchange of drugs south of
the Dominican Republic. The one ship involved in both operations
appears to be the one using callsign [REDACTED]
